Neighbours of
2285 Bowker Ave
Victoria, BC

Dear Neighbours,

Re: Civil Work Commencing

Construction on Bowker is progressing rapidly, and as such civil work will be commencing on Monday, September 30th, 2019; we anticipate this work will last roughly eight (8) weeks in duration.

This work consists of the establishment of new storm and sewer connections to the building, along with significant upgrades to both the storm and sewer systems; these upgrades are being completed by Abstract Developments on behalf of the District of Oak Bay.

In order to perform this work, temporary road diversion and traffic measures will be enacted. These measures include lane relocation, reduced parking and turning access.

Enclosed you will find a copy of the traffic control plan which will be in place during this work. This plan indicates changes to traffic and parking around the intersection.

If you have questions or concerns regarding this plan or the work being completed, please do not hesitate to call our office at 250.883.5579 or send an e-mail to info@abstractdevelopments.com. Your inquiries will be responded to promptly.

We thank you for your continued patience as a valued neighbor of our Bowker development, and look forward to updating you as work continues to proceed toward building completion.

Warmest regards,

Tom Howe
Project Manager
Abstract Developments
