Construction Notice – June 8, 2020

Central Avenue – Sanitary Sewer Pipe Replacement Project

The District of Oak Bay will be replacing an existing sanitary sewer main on Central Avenue between Byng Street and Linkleas Avenue. The project start date is June 15, 2020, with an expected completion date of July 31, 2020.

Traffic and Parking

Central Avenue between Linkleas and Byng Street **will be closed to the general public with access to local traffic only**. Public Works staff will be available to residents during construction to accommodate any specific needs.

Works Expected

The scope of work includes saw-cutting and removal of the road surface, excavation and removal of the existing sewer pipe, installation of the new pipe, and road restoration. Residents can expect open excavations and the movement of construction equipment. Dust will be controlled with the use of water and street sweeping equipment. Public Works crews will work between 8:00 am and 4:00 pm, Monday to Friday.

We do not anticipate any disruptions to the water service, though Public Works will provide 24-hour notice before any planned shut-off. However, in the event the water is shut off unexpectedly, we will aim to have the service back on as soon as possible.

Thank you in advance for your patience and understanding. Should you have any questions, please don't hesitate to call the Engineering Department at (250) 598-3311.

Sincerely,

James Davison, ASCT.
Engineering Technician
