Oliver Street Water Main Project Phase 2 Notice of Work – January 26, 2024

For 2024, the District of Oak Bay will be continuing its water main replacement work on Oliver Street between McNeill Avenue and Brighton Street (See work zone below for phase 2). A start date has not been established, but residents will be notified once a schedule has been established.

On Monday January 29th, between 8:00 AM to 4:00 PM, a contractor will be working in the north-bound lane on Oliver Street drilling holes for the purpose of testing the existing soil conditions. This work is required to assist with the planning of the project. The locations of each test hole have been marked on the road surface. Currently, we ask residents not to park within 5.0m of the locations.

This work is part of our on-going infrastructure improvement plan that will enhance the integrity of the water supply system for domestic use and for fire-fighting purposes.

We shall endeavour to keep any inconvenience to a minimum. Thank you in advance for your patience and understanding, and should you have any questions, please contact the District of Oak Bay's engineering department at (250) 598-3311 or by email at engineering@oakbay.ca.
