

CREATING AN INATURALIST OBSERVATION

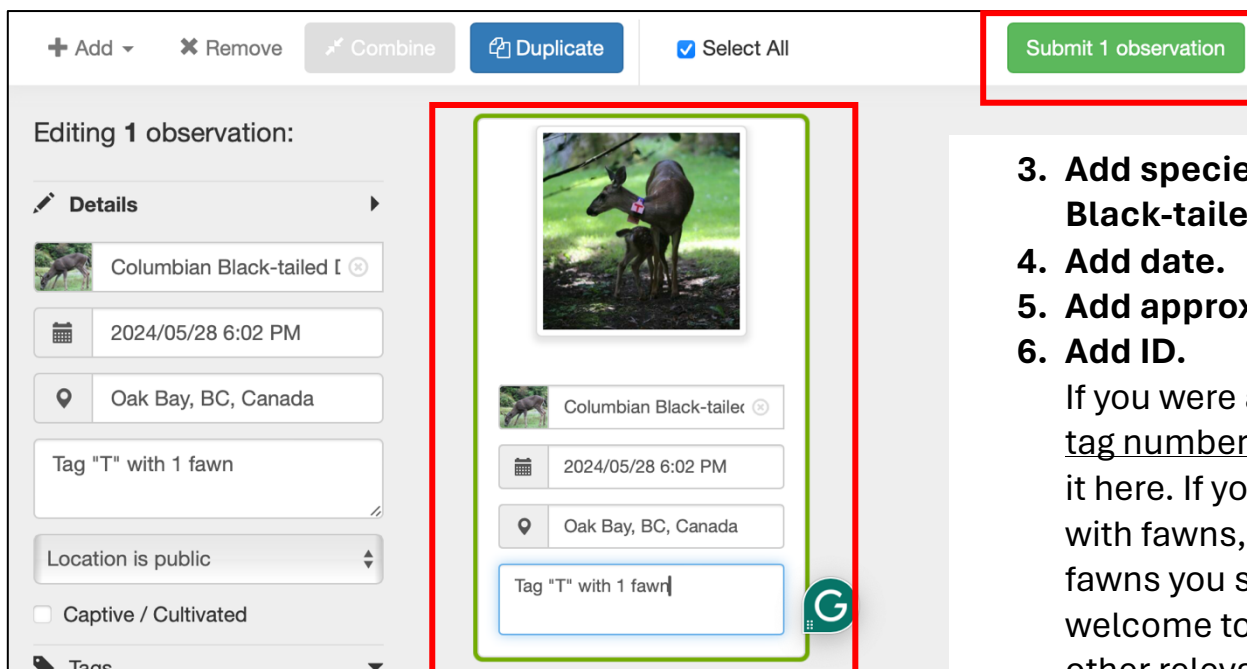

1. Select a tagged deer photo

2. Add the observation to *The Urban Deer Project*.

Note: If this step is missed, we won't be able to see your observation

3. Add species (Columbian Black-tailed Deer).

4. Add date.

5. Add approximate location.

6. Add ID.

If you were able to view the tag number or symbol, state it here. If you noticed the doe with fawns, indicate the # of fawns you saw. You are also welcome to include any other relevant comments.

7. Submit your observation!
